

ICSC is proud to serve as the shopping center industry's trade association, representing a diverse group of businesses that includes the developers and operators of retail properties, as well as the tenants who occupy them, ranging from retailers to professional services to restaurants, gyms and theaters. Nearly 70% of shopping center tenants are small businesses that employ less than 10 people. Data associated with the retail real estate industry includes both shopping centers and freestanding retail establishments. In cases where this data was not available, we refer to shopping centers only. Statistics are from 2019 and do not reflect the extraordinary impact of COVID-19 on the shopping center industry.

Utah	2018	2019	US 2019
Number of Shopping Centers ¹	911	916	115,017
